### COMPANY INFORMATION

BFG – BRAZIL FURNITURE GROUP was created in the year of 1998, result of a partnership between two of the most traditional furniture manufacturers in Brazil, Renar Moveis and Rotta Moveis, both located in the state of Santa Catarina, in the southern part of Brazil.

Renar and Rotta were founded by German and Italian immigrants in the early part of the last century, and today are both administrated by the fourth generation of the family.

Backed with the technology available at the time, for nearly a century these companies developed themselves as solid and serious companies that are complying with their social role and participating in the industrial development of Brazil.

FSC approved. No native tree is cut down for the production of our 100% solid wood products. The natural forests, rivers, streams and springs are preserved under strict company requirements, and Brazilian environment protection laws.

BFG offers:

- The best mixed container program for the current days, with 40 different styles of master bedrooms, youth bedrooms, wall units and casual tables.
- The best way to flow containers.
- Fast delivery time. Shorter leadtimes and quicker transit time from Brazil to US when comparing to Asia.
- Door delivered prices
