COMPANY INFORMATION

Fatboy's story began in 2002 with an oversized beanbag. It soon became clear that the entire world wanted to sink down on this unexpected replacement for the chair. In homes, on terraces and at events - everywhere, we saw people sitting and hanging out on our products with big smiles. And that's why we do it. With a no-nonsense Dutch approach and an international team, we transform lots of homes, gardens, offices and parties into happier places.

At Fatboy, we create our own versions of old favorites for your home and garden. We translate the essence into iconic designs with a twist – and full of ingenuity. With every detail, we look for the fun in functionality. From the label on Edison the Petit to the buttons on the back of The BonBaron, everything has a function. And that takes months of designing, testing, and improving. We do this with our own design team and designers with the same vision as ours. Together, we work on new classics of the highest quality – all with the purpose to let people enjoy them for years and years to come. With furniture, lamps, home accessories, garden furniture - and of course with our trusty classic: the beanbag. Lean back. Feel free. Life is your party.
