Made for curling up & stretching out, the Jasmine Chair by M is constructed with gentle slope tapered arms, a fiber down bench seat and a wood plinth base.

In solid mahogany with a warm chestnut stain, the Harlow Tables by M call on mid-century modern style. They feature curved trestle bases and a unique design where the legs converge with the tabletops.

The Ren by M is a transitional modern track arm sofa designed with arms that are subtle and recessed, back and seats that are loose, and a bump out front rail.

Art and architecture come together in the Modern Mood Accent Console by Hooker Furniture. It is characterized by its circular brushed metal base accents in a warm pewter finish.

The Brooklyn Sofa by Bradington-Young is characterized by its tall, rounded, tear drop-shaped arms. With updated classic styling, it is covered in a taupe and grey color story.

The Lennon sofa by Bradington-Young has a menswear feel with its inset nail head details and modified roll arm. The silhouette is covered in a dew drop blue, offering an updated transitional look.

Developed in partnership with Susan G. Komen, the Hope Chest features hand-painted details in a signature pink hue. A portion of the proceeds from pieces sold will be donated to the organization.

The Monterey Sofa features a curvaceous shape that was designed for the ultimate in comfort. With flared and extra padded arms, it includes layered back pillows for added cushion and visual dimension.
