Joi is simplicity with presence, offering a casual sitting experience wherever it is placed. A tantalizing array of color options are offered across seat trim.

The Coleuri is the perfect casual dining chair or accent chair for your home. By Italian designers Dorigo Design, the molded shell, is available in same 6 poly colors as our Joi Stool collection.

4-UP is a fully ergonomic work chair that can support from sit-to-stand desk and everywhere in between. "The Telescoping Gas Lift" gives opportunity to access the 'in between' or 'perching position'.

Discover instantaneous comfort personalized to the way you sit with Onda—Italian for "Wave"—Via Seating's first all-mesh, multiple award-winning chair with pivoting height adjustable arms.

With its beautiful slim lines and seductive curves, Proform offers three different designer stitch patterns: panel stitch, parallel stitch and a distinct, diamond stitch pattern.

Run with your imagination. Explore Run II. The seat, available in a medium or large, is made of comfort foam with an ergonomic, waterfall edge. Run II offers a mid-back and high back chair.

Reset your perspective. Sink back into its thick layer of the ergonomic, waterfall seat's comfort foam. Experience the 4-way stretch elastomeric mesh paired with a smooth flex back to 22 degrees.
