The abstract Folia Collection is a sculptural interpretation that takes inspiration from banana leaves. The uneven, natural edges and hammered texture add dimension and shape.

Three white plains dance around a central light source to capture and distribute light in the Rotary Collection. Tapered edges of the solid wood blades highlight the light towards the center.

Champagne Gold and Clear Firenze crystal layers with cast brass branches create a vine-like cascade of Wisteria flowers in the stunning Fuji Collection.

Dichroic, alternating-colored glass is the focal point of the Chroma Collection. This modern floor lamp features a geometric design and true brass finish.
