COMPANY INFORMATION

Los Angeles, California based contemporary designer, Alexandra Von Furstenberg created Alexandra Von Furstenberg, LLC the brand in 2007, to create luxurious, innovative, modern furniture and home accessories made of acrylic. She originally began by designing acrylic tables inspired by faceted gems, for her personal home, and then realized there was a market for her designs. Following her passion, she launched her first designs, a collection of acrylic neon tables, in March of 2008 and then expanded the collection to include jewel tones and neutrals. Soon after AVF accessories were added to the collection and include a variety of accessories like trays, bowls, vases and an expansive variety of tabletop accessories. All the collections of acrylic furniture and home accessories continue to grow and evolve with new colors and pieces added each year.
