COMPANY INFORMATION

Lloyd Flanders® makes premium casual furniture with timeless style, heirloom-quality craftsmanship and unparalleled service.

Our business draws on more than a century of experience to build comfort that endures. In 1906, inventor Marshall B. Lloyd opened the Lloyd Manufacturing Company in Menominee, Michigan, where he developed a timeless and unique process for creating fine woven furniture. When the Flanders family purchased the Lloyd Manufacturing Company over 40 years ago, we made a commitment to honor the history and heritage of the company, and to maintain the high-quality standards our customers have come to expect. We use state-of-the-art manufacturing processes and equipment combined with over 100 years of tradition and furniture knowledge to produce the finest outdoor furniture available today. Combining the best of the old with the improvements of the new yields heirloom-quality furniture to be enjoyed for generations to come. We're proud to be a family-operated business and we're dedicated to growing and fostering the relationships we've built with our customers.

In addition to our iconic Lloyd Loom® furniture, we've expanded our offerings to include synthetic handmade woven products and sustainably-sourced teak. Improvements in materials, processes, finishes, design and seating are introduced each season.
