Royce, reminiscent of minimalist upholstered furniture from France, features a precise arrangement of raised squares, resulting in a 3 D pattern. In cappuccino leather.

A chic, scalloped back and sumptuous velvet upholstery. The Cosmo and its brushed brass base add a luxurious touch to any room.

Cass is a modern interplay of vertical and horizontal arms adorned with frosted glass diffusers enclosing LED bulbs. A striking presence with grid-like form,

Natural light can filter through perforations on the base of the Kelvin Ceramic Table Lamp, creating a beautiful effect day and night. In Terra Cotta colorway.

Equally as sculptural is the curved and symmetrical Slinky Marble Table Lamp. Crafted from solid marble, each piece is completely unique.

## COMPANY INFORMATION

Founded on the belief that everything we do should electrify the room, Regina Andrew sparks self-expression and creativity through unforgettable design.

Real-life couple Carla Regina and James Andrew founded Regina Andrew with one goal in mind: that everything they do should electrify the room. Based in the "Paris of the Midwest," their home decor and lighting brand has hit that goal, and then some, as they've expertly blended form with function and added a hearty dose of rock 'n' roll along the way. Their products are globally inspired and designed with natural materials as the star. Alabaster, crystal, and marble offer a timeless aesthetic, while brass and mirrored finishes bring RAD's signature glamour to the forefront.
