Transformed by generations of bold, visionary leadership, Valdese Weavers has been manufacturing residential and contract textiles in the foothills of North Carolina for over 100 years.

From the hardworking employees who run our looms to the creative minds who design our fabrics, we take pride in being a 100% employee owned company that produces decorative fabrics seen worldwide.

Valdese Weavers is a leader in corporate responsibility, maintaining the highest standards of sustainability & design through constant innovation that benefits our people, processes, & products.

We are a proud partner of SEAQUAL INITIATIVE. Marine litter is cleansed and transformed into SEAQUAL® YARN which is then used to weave fabrics made from recycled ocean plastics.

Valdese Weavers partnered with Recover™ to drive the use of sustainable materials in the textile industry. Recover™ provides recycled fibers from textile waste that are used to weave custom fabrics.

An excellent choice for busy, high traffic homes, InsideOut Performance Fabrics is the most versatile of our performance brands. This all-in-one fabric is engineered for indoor & outdoor applications.

Sustain Performance Fabrics are inherently stain resistant, and cleanable. These soft, stylish fabrics, chemistry-free performance fabrics are durable to withstand the trials of everyday living.

Our latest collection is inspired by a "resurgence" in retro modern styling for a fun, sophisticated look. We are excited to highlight our new yarns, velvet colors, and sustainability initiatives.

COMPANY INFORMATION

Valdese Weavers is a century-old textile mill with a deeply rooted heritage. A spirit of ceaseless innovation and growth maintains the company's unparalleled success and leadership position in the textile industry. As a 100% employee-owned ESOP company with a vertical manufacturing structure, Valdese Weavers is able to provide mass customization like none other in the business. Trading under six distinct brands; Valdese Weavers, Valdese Weavers Contract, Circa 1801, InsideOut Performance Fabrics, Sustain Performance Fabrics, and Ease Eco Performance, Valdese Weavers has an active library of over 200,000 patterns used in products worldwide. Valdese Weavers thoughtfully designs and responsibly weaves innovative textiles while striving to minimize our impact on the natural resources we share.
