Worry less. Live more. Embrace the effortless blend of practicality and eco-conscious living with Sustain Performance FabricsTM, where enduring comfort meets the demands of everyday life.

Crafted for everyday households, Sustain Performance Fabrics are easily cleanable with just soap and water, or a diluted bleach mixture, while avoiding the use of extra chemicals such as PFAS.

Sustain Performance Fabrics are made from low-impact fibers and utilize fewer natural resources to redefine responsible luxury.

With the performance engineered directly into the yarn itself, Sustain Performance Fabrics boast unparalleled durability and cleanability, making them the perfect choice for any upholstered piece.

Embrace an eco-conscious choice without sacrificing style or functionality. Sustain Performance Fabrics are crafted with low impact materials that use less natural resources to produce.

Sustain Performance Fabrics are GREENGUARD GOLD certified, ensuring healthier, more sustainable indoor environments by verifying that products meet environmental, health, and safety standards.

Functional and style forward, Sustain Performance Fabrics are created by a talented team of designers at our vertically integrated textile mill in the foothills of North Carolina.

Sustain Performance Fabrics have a natural look and feel that rivals that of natural fibers. Our cloud yarn gives our fabric a soft, inviting hand perfect for uses such as pillows and upholstery.

COMPANY INFORMATION

Sustain Performance Fabrics™ are designed and produced with impeccable attention to detail to ensure the highest quality performance for busy households. Stain resistance is inherent to the yarns used to weave Sustain Performance Fabrics™ allowing these textiles to be cleaned with bleach, soap, and household cleaners. Sustain Performance Fabrics™ are produced with environmental standards in mind. These fabrics have a reduced carbon footprint and are free of added chemistry such as PFAS and PFC Chemicals. Sustain Performance Fabrics™ is committed to being an innovative textile leader, thoughtfully designing and responsibly weaving textile products while striving to minimize our impact on the natural resources we share.
