COMPANY INFORMATION

Founded in the Pacific Northwest in 2011, our company grew from a desire to modernize the furniture industry. Focusing on quality and contemporary design, we offer sophisticated home decor to help create your inspired lifestyle. We have been committed to driving meaningful change through our eco-design house. We began with planting trees and as we grew as a company we started to think on a larger scale how we could make a positive impact in the world, like using more luxury natural materials in our eco-friendly designs.

Over the years, Rove Concepts has evolved into a brand that is renowned for its impeccable designs and commitment to quality. From humble beginnings, doing photoshoots in the back of a warehouse, we have now catapulted ourselves into the present day with an exceptional in-house production team. Our team now embarks on remarkable journeys, capturing the essence of exquisite furniture in opulent, multi-million dollar homes spanning across the United States and Canada. Our partnerships have evolved significantly over time including a furniture collection line with Maria Sharapova, to partnering with Selling Sunset's The Oppenheim Group, and many more...
