COMPANY INFORMATION

At Duracryl, we believe we all play a vital role in shaping the world of tomorrow. That's why we combine innovation, quality, and sustainability in every product we create, ensuring that our flooring solutions contribute to a better, greener future.

As leaders in the production of floor coverings based on natural and renewable materials, our mission goes beyond aesthetics and performance. Our commitment to sustainability is deeply embedded in everything we do. All Duracryl products are designed to reduce carbon emissions, making a positive impact on the environment compared to traditional fossil-based products.

Our flooring meets the rigorous standards set by the Healthy Materials Lab at Parsons School of Design, qualifying as "Climate Positive Flooring" with less than 5kg of CO2 per square meter. This ensures that by choosing Duracryl, you're not just investing in flooring, but in a sustainable future.
