The Ava Drink Table reflects an appreciation for clean lines and purposeful simplicity, as well as functionality. This contemporary drink table features brushed metal and acrylic accents.

Monet Mirror - Large. Universal mirror using classic traditional geometry and eye-catching accents paired with a classic gold finish to compliment any room.

The Brooks Sconce combines a geometric alabaster diffuser and an exaggerated polished brass backplate to be an intriguing take on a unique and differentiated design.

Yara Sconce. A modern, geometric sconce. Using a large alabaster circle as its centerpiece contrasted with a polished brass backdrop to be a simple but compelling piece.

Hutchens Sofa. Taking inspiration from the sculptural forms of Postmodern design, the Hutchens sofa is an interplay of undulating clean lines and tailored minimalism.

The Daliyah Sideboard is a modern, tall piece that stands out with its simple geometric silhouette, designed to accentuate its front and sides. These surfaces are wrapped in a custom fabric.

Bruna Floor Lamp. Carved detailing up the length of the lamp paired with a subtle taper, negative space between the base and carving break the tension of the visual weight.

The Lauren Linear Chandelier uses unique brass detailing to connect each light to the geometric connector to contrast the round tubing and the soft curve of the shade.

COMPANY INFORMATION

The Trailblazer in Transitional Style

At Gabby, melding traditional and modern design for beautiful transitional style is at the very heart of what we do. We create exclusive furnishings, custom fabrics, and statement-making lighting with worldly, unexpected details that convey “just the right bit of wow.” Interior designers consistently tell us we’re their go-to brand for fresh, transitional design pieces with a little twist that elevate a room’s style.

Mixing interesting materials in chic contrast, we incorporate vellum, rattan, bone, horn, eglomise, and reclaimed wood in new and inventive ways. Our transitional-style home furnishings can stand alone as design stars yet also “speak” to other pieces in the room, from antique to traditional, almost in visual conversation. We begin with hand sketches in house and honor the creative process from start to finish. We hand chisel ornamentation to make sure our designs shine with precision and beauty that’s unique to each product’s individual story and origin.

Our inviting showrooms offer exceptional small-business service, no matter how large we grow. We’re dedicated to making your home a sanctuary that brings family and friends together in true comfort and beauty—providing Life’s Best Moments. Furnished.
