## COMPANY INFORMATION

What began 35 years ago as a boutique accessories company has matured into a global force within the design industry. With an ever-expanding selection of premium lighting, furniture, wall décor and accessories, Arteriors redefines the spaces where we live, play and work. You will find creativity, elements of surprise, and meticulous craftsmanship throughout the collection.

Arteriors introduces hundreds of new products each year, with an understanding that thoughtful design extends beyond ideation. When conceiving each new piece, Arteriors considers the production methods and materials, then marry them with a trusted partner in their vast network of artisanal factories. With this focus on intentional design, using quality materials and handcraft, Arteriors continues to build future heirlooms – products that enjoy a lengthy, useful lifecycle.
