STICKLEY®

APRIL 2025 PRESS KIT

In 2025, L. & J.G. Stickley turns another page in the history books, marking 125 years since the founding of our iconic company! In honor of this milestone, we've placed a truly special showpiece at the heart of our Spring Market offering: the 125th Anniversary Fireside Bench. You'll see this and other exciting introductions—22 new items plus a flexible Design Your Own program—throughout our **200 North Hamilton Street** showroom.

MISSION INTRODUCTIONS

The extraordinary 125th Anniversary Fireside Bench is our nod to an original 1902 Stickley Bros. design, a type of high-backed settle that was often positioned in pairs near a fireplace. This limited-edition version is a dazzling, **42.5-inch-high storage bench** that lends itself to entryways, mudrooms, living rooms, and more. We've also created two cabinets featuring our Mission Rose inlay and two beautiful new Arts and Crafts rugs in rich botanical style.

PORTFOLIO120 INTRODUCTIONS

Additions to our Portfolio120 occasional furniture make the most of **striking natural materials**. In the round Holland group, modern bases of bent white oak support broad travertine tops (48 inches in diameter on the cocktail table!), while redesigned Durant occasional tables showcase the same recycled copper found on the recent Durant Sideboard. Both groups are available in any white oak finish.

STICKLEY FINE UPHOLSTERY

The new Holland modular sectional offers exceptional versatility, with **four plush components** that can be arranged in a variety of configurations and a clean look that complements many décor styles. A petite Laurel manual recliner—just 30 inches wide—is big on style while perfectly scaled for petite customers.

WALNUT GROVE EXPANSION

We're thrilled to unveil a new Design Your Own system for our best-selling collection! Walnut Grove lovers can now customize their own sofas, chairs, ottomans, and sectionals, choosing from **3 arm, 2 back, and 3 base styles** as well as 9 sectional components. In addition, a new backless version of our most recent bench offers another versatile seating option for entryways, bedrooms, and dining rooms.

HUDSON VALLEY ADDITIONS

Our recently launched Hudson Valley Collection—the hit of last fall's market!—now boasts two new pieces in response to overwhelming demand. A stunning **62.5-inch-wide desk** provides a spacious work surface along with a drop-front keyboard drawer and open storage on the back side. And a thick-cushioned ottoman has been added to pair with the remarkable Wood-Frame Chair.

FABRIC & LEATHER INTRODUCTIONS

For approximately **70 fabric introductions** this season, the emphasis is on organic colors and textures that echo elements found in nature. Neutrals are distinctly warmer—stone, beige, mushroom, taupe, and calming browns—and combine beautifully with moss greens, earthy terra cotta, and accents of emerald and sapphire blue. Creating soft, tactile sensations that inspire comfort, we compile layered textures of varying depths, led by bouclés. Multi-dimensional jacquard cloths place embroidered organic motifs, including scrolling florals and vintage-leaning graphic botanicals, over soft linen textures. **Two new leathers in 8 nature-inspired colorways** include a soft, plump, full-grain article and a heavier wax aniline leather of rugged elegance.
