Our love for this accumulation and our work exposes the heritage quality rugs that you may use for many years.

WIDE RANGES OF PRODUCT

- **ORIGINAL TURKISH DOUBLE KNOT RUG PRODUCTION**

We started our Turkish hand-knotted rug weaving adventures in 1963 in Turkey and now extended our production capacity yearly 5000m2 without sacrificing the characteristics of Turkish double knotting system in Turkey, Bangladesh, and India.

- **TIBETIAN WEAVING,**

We carefully choose the most special materials that have the gift of nature to us like silk and wool. Tibetan weaving is one of the best production for custom orders we produce in Nepal.

- **HAND/AUTO TUFT PRODUCTION**

We began to manufacture Autotuft Custom order carpets for residential and commercials five years ago with the experience we have accumulated in hand-knotted rugs production.

We have the capacity around 2000m2 monthly which we make the production in Turkey/Istanbul with high-quality materials.

FAST PRODUCTION & DELIVERY

Due to we produce the orders in-house, the lead time for custom orders is very quick like 4 weeks.

Loominology will be happy to be a partner preparing your current projects with our professional designers, selecting colors and right materials.

We wish you a pleasant business...
