# *I Am \_\_\_\_\_ Collection.*

This five-piece table lamp collection — titled I Am Bold., I Am Brave., I Am Empathetic., I Am Strong., I Am Loved. — is a celebration of emotional authenticity and the power of personal expression through design. Each lamp in the I Am \_\_\_\_\_ Collection is a sculptural affirmation, blending vibrant color, bold form, and upcycled artistry to reflect a specific emotional state. Together, they create a series that invites reflection, connection, and dialogue — challenging the outdated notion that expressing emotion is a weakness.

In today's world, vulnerability is often misunderstood. This collection reclaims emotional expression as a strength — something to be honored, not hidden. Furniture and lighting should not only serve a function, but also carry meaning, impact mood, and help tell the story of who we are. These lamps do just that. By giving form to feelings, I Am \_\_\_\_\_ stands as a radiant reminder: emotion is not only okay — it's essential.
