COMPANY INFORMATION

Artifacts Trading Company has been working with Burmese artisans for almost 25 years.

What started as a devotion to global travel still influences our company and products as we work directly with artisans and workshops in SE Asia, creating practical functional home décor that reflects quality traditional craftsmanship. We developed decade-long relationships and work cooperatively with artisans to ensure the highest standards and fairest practices.

We are deeply committed to being fair and responsible in everything we do socially, economically, and environmentally and we know that the best way to make a difference is to help the local artisans and craftsmanship communities.

We envision the day when all trade will be fair, when everyone has the opportunity to earn a fair wage, be treated with dignity and respect and be able to live a life of quality.

Our company's products are hand-woven with a tight weave, durable construction, and exquisite and impeccable quality. Woven from Burmese rattan which is natural and sustainable, our rattan trays and baskets come stained in Honey Brown, Tudor Black, or Whitewash to provide a sophisticated and perfect finishing touch.

Please enjoy your journey through our items and let us know how we can help you incorporate these fine artisan baskets in your business or home.
