COMPANY INFORMATION

BUILT HERE. BUILT BETTER. BUILT FOR YOUR BUSINESS.

Comfort Sleep is a North Carolina mattress manufacturer built around a simple belief: great products matter, but great partnerships build businesses.

From our facility in Thomasville, NC—at the heart of America's furniture and bedding industry—we manufacture sleep products for retailers, hospitality customers and private-label partners who want more than another mattress on their floor. They want a manufacturer who listens, adapts and delivers.

That's the Comfort Sleep Difference.

Our capabilities include innerspring, pocket coil, foam, latex, hybrid and two-sided mattresses, plus custom sizes and shapes, RV and hospitality bedding, private label, and traditional or roll-packed options.

What truly sets us apart isn't simply what we build—it's how we do business. We believe retailers shouldn't have to fit into their manufacturer's box. Whether you need a distinctive collection, custom specification or dependable manufacturing partner, our team is accessible, flexible and ready to build around your business.

Proudly manufactured in North Carolina using trusted components and CertiPUR-US® certified foams.

Quality • Craftsmanship • Service.

Come experience the Comfort Sleep Difference and discover what we can build for your business.

COMFORT IS EVERYTHING.
