COMPANY INFORMATION

BDI designs furniture with the eye of a designer and the discipline of an engineer. Our collection spans media, office, bedroom, and dining, along with contemporary shelving systems and motion occasional tables.

Across every category, clean forms are paired with purposeful materials, intuitive function, and details that improve everyday use. We consider how a piece works in the home, how its materials will perform over time, and how it can adapt as needs and technology change. The result is furniture designed to remain useful, relevant, and easy to live with.

Based in Chantilly, Virginia, BDI is available through fine home furnishings and electronics retailers across the United States, Canada, and international markets. We ship to retailers nationwide, with export opportunities available.
